

Table 1: Comparison on the SOSNet Cyberbullying dataset. Prior baseline scores are reported from Wang et al. (2020); the Bully Expert score was obtained in local evaluation for comparison.

| Model                                   | Accuracy | Macro-F1 | Setting    |
|-----------------------------------------|----------|----------|------------|
| Bully Expert                            | 0.951    | 0.950    | Fine-tuned |
| SBERT + SOSNet (GCN; Wang et al., 2020) | 0.927    | 0.926    | Supervised |
| SBERT + MLP (Wang et al., 2020)         | 0.915    | 0.915    | Supervised |
| DistilBERT + SVM (Wang et al., 2020)    | 0.919    | 0.919    | Supervised |
